Integrated directly into this chapter, the Personal Report of Public Speaking Anxiety enables the reader students to assess her confidence level, receive her score immediately, and continue reading about how to improve speaking anxiety — all without breaking stride in the chapter. Techniques for managing speaker apprehension, such as how to look for positive listener support when delivering a message, are also included throughout the text. Besides learning how to speak in public, one of the most valued benefits of studying public speaking is becoming a more discriminating listener by developing critical listening skills. A section on listening, critical thinking, and analyzing and evaluating speeches helps students better understand their roles as speakers and listeners. Critical Assessment questions at the end of each chapter offer further opportunities to listen, analyze, and think critically. Emphasizing that an effective speaker is an ethical speaker, the authors help students understand the importance of ethics. Ethics is emphasized throughout the text, as well as in the dedicated Chapter 4, Ethics and Free Speech. Ethics Assessment questions at the end of each chapter spark thought and discussion on ethical issues in public speaking. A pedagogically sound framework helps students build the skills they need. Learning objectives at the beginning of every chapter provide a preview of chapter content and help students focus their study. Content is available both online and offline, and the app syncs work across all registered devices automatically, giving students great flexibility to toggle between phone, tablet, and laptop as they move through their day.
